ABOUT ISGM

The Institute of Sustainability, Governance and Management (ISGM) is a professional education and skills-development institution focused on preparing individuals and organisations to navigate the rapidly evolving demands of the modern economy.

ISGM delivers industry-relevant, competency-based training across sustainability, climate risk, governance, risk management, ESG, compliance, finance, management and other emerging professional disciplines.

GOVERNANCE &
MANAGEMENT, ISGM**

OUR PRIORITY

At ISGM, we combine professional knowledge, practical application and future-focused skills development.

Our learning experience is designed around:

- **Skills Development:** building competencies that professionals can apply in real organisational environments.
- **Sustainability:** equipping professionals to understand and respond to environmental, social and economic challenges.
- **Governance & Risk:** strengthening the ability to make responsible decisions, manage uncertainty and build resilient organisations.
- **Career Progression:** helping professionals develop capabilities that enhance their professional value and career opportunities.
- **Practical Learning :** using case studies, simulations, industry scenarios, projects and applied assessments to connect theory with practice.
- **Future Readiness:** preparing professionals for emerging disciplines
